RE: TESTIMONIAL – TREVOR KEMPSTER

To Whom It May Concern,

I write this testimonial on behalf of Stonewall Platinum in regards to the outstanding interaction that we have had with Trevor Kempster. From our initial dealings with Trevor his passion for TBA Firefly and for the general fire protection industry aligned with our personal and company integrity to strive for the same standard in this field. His ability to perceive potential issues and create solutions were integral to our products overcoming various fire protection obstacles.

It is without a doubt his black and white stance on compliance and passion for life and asset protection gave us the confidence to have TBA Firefly as our partner in the Australian Fire Protection Industry.

Sincerely Yours

Luca Fortunato

Director
